

engitech[®] A & B Series

Polyamide 66 (PA 66) / Polyamide 6 (PA6) Compounds

- ✓ ENGITECH[®] A & B series is a portfolio of PA66 and PA6 compounds respectively, suitable for a wide range of applications.
- ✓ Our PA 6 & PA66 prove themselves in numerous and diverse applications, especially beneath the engine hood. They are frequently used as a substitute for metals such as steel and aluminium or for thermosetting plastics.
- ✓ Our product series delivers high performance benefits ranging from:
 - Excellent mechanical strength
 - Long term heat stability
 - Outstanding resistance to chemicals
 - Excellent surface quality
 - Outstanding long term stability to coolants
 - Flame retardant
 - High dimensional stability
 - Easy flow and high stiffness
 - Easy processing
- ✓ ENGITECH[®] A & B are best suited for applications like :
 - Automotive
 - Electronics and Electrical
 - Furniture
 - Toys
 - Industrial applications
 - Agricultural
